

# Welfare Officer & Equal Opportunities Officer

Glenn Harris

1<sup>st</sup> year undergraduate NatSci

Experience: SU Welfare officer at previous college inc. finance committee activities regarding welfare issues.  
Life (you don't get to 34 without some experience).

The college has a good system in place regarding welfare and equal opportunities, with **accessible** and **supportive CR** officers and regular events with which to see them.

I intend to continue this high standard by continuing to be an **approachable** and **understanding member** of the college.

I'll continue the successful Sunday tea in much the **same way** as has **proven successful** this term.

I'll attend committee meetings where the college's treatment of the student populous presents opportunity for increased equality (as in previous roles)

In short, your first 'port of call' for anything 'on your chest' that need off.
